VALUE

The DiSoCi Training Programme is an innovative project, suggesting an on-line assessment tool for evaluating the level of digital, social and civic competences of adult educators for better outreach of migrants and refugees.

Training program will assure the gaining of the basic skills on digital competence: the use of computers to retrieve, assess, store, produce, present and exchange information, and to communicate and participate in collaborative networks via Internet. It will also allow to gain new skills related with social and civic competences, i.e. the ability to **communicate constructively in different environments, to show tolerance, express and understand different viewpoints, to negotiate with confidence, and to be empathic. Individuals should be able to cope with stress and frustration** and express their thoughts and feelings **in a constructive way**. Moreover, they should also be able to distinguish their personal and professional lives.

DIGITAL, SOCIAL and CIVIC COMPETENCES

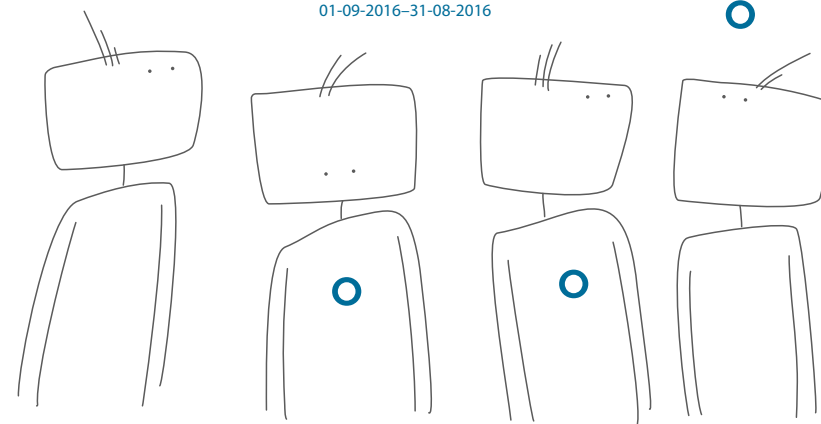

development of adult educators working with migrants and refugees

Objectives of DISOCI

The **objectives** are:

- To evaluate the level of adult educators Digital, Social and Civic competences for working with migrants and refugees;
- To encourage a continuing and a continuing and professional development of adult educators by producing innovative education training program for the development of their digital, social and civic competences;
- To increase motivation and reduce disparities in learning outcomes of migrants and refugees by suggesting digital e-Re-pository of Open Educational Recourses for their competence development in 4 main training areas: „Promoting of Social Entrepreneurship“, „Promoting Gender Equality and diversity in order to protect human rights of migrants and refugees“, „Promoting personal development“, „Empowerment of integration of migrants to the labour market“.

To meet the above mentioned needs and implement the objectives, the consortium of partners will produce 3 intellectual **outputs**:

- **assessment model**
- **training program**
- **e-repository**
